

**Total Facilities Management: helping you make the most of your spaces**

## Welcome Back

Here at 1st Choice, we have remained open for business throughout the COVID-19 pandemic. We've been really proud of our workforce who have continued to provide a dedicated service throughout.

We know that many of our clients have had their premises closed to allow their employees to stay safe by working at home. Now that businesses are looking forward to

reopening, we're here to support you.

Our total facilities management service offers everything you need to get your buildings up and running, safely and efficiently. If there's anything we can do to help, please get in touch.

### COVID-19 Secure

As you would expect, we apply our famous attention-to-detail to keeping our own premises operating safely.

Our COVID-19 secure measures include a bespoke auto hand sanitiser unit, the Head Office digital attendance system for staff, visitors and contractors, and a temperature sensor.

### Head Office Expansion

We've been busy over the last few months expanding our head office building.

Some of the improvements include a new accounts office, meeting room, staff welfare and breakout area, CCTV and alarm monitoring centre and training centre.

### CCTV and Alarm Monitoring Centre

Our CCTV installations with remote monitoring provide you with a steady pair of eyes over your property at all times. Our new CCTV and alarm monitoring centre allows us to monitor your CCTV and alarms in-house.

This means that you have total peace of mind from knowing that only our thoroughly vetted, fully trained operatives are watching over your property.

### Training Centre

One of the things that sets 1st Choice apart from other facilities management services providers is our attention to detail. We create bespoke training for our operatives so that you get exactly the right service for you.

Our new training room is a dedicated space for 1st Choice operatives to learn everything they need to know to keep your premises working at their best.

## We're here to help

Did you know that our range of bespoke facilities management services can give you value, quality and total peace of mind.

Our team of experts will keep your premises safe, efficient and comfortable, day after day. You can get on with running your business; we'll take care of your buildings.
